

Muhammed Mijwad

Full Stack & AI Developer

+973 3530 4609 | muhammedmijwad01@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#) | [LeetCode](#)

Summary

Full Stack & AI Developer with hands-on experience building production web applications, backend systems, APIs, and AI-powered workflows. Experienced with Python, Django, React, JavaScript, PostgreSQL, REST APIs, third-party integrations, and LLM APIs including OpenAI and Gemini. Worked on AI applications involving document processing, OCR, semantic evaluation, RAG, AI agents, and workflow automation, with experience taking features from requirements through development, integration, deployment, and production support.

Skills

- **Languages:** Python, JavaScript, TypeScript, SQL, HTML5, CSS3
- **Frontend:** React, Redux, Bootstrap, Tailwind CSS, Responsive Web Design
- **Backend & APIs:** Django, Django REST Framework, FastAPI, Node.js, REST APIs, WebSockets, JWT, Authentication
- **AI & LLM:** OpenAI, Gemini AI, LLM APIs, AI Agents, Chatbots, RAG, Prompt Engineering, OCR, Semantic Evaluation, Document Processing
- **Databases:** PostgreSQL, MySQL, MongoDB, SQLite, Redis, SQL Queries, Django ORM, Database Design
- **Integrations & Automation:** Third-Party APIs, Webhooks, CRM Integrations, API Automation, Make.com, Zapier, GoHighLevel
- **Cloud & Deployment:** AWS EC2, AWS RDS, Amazon S3, Linux, NGINX, Gunicorn, Docker, Vercel, Railway
- **Tools:** Git, GitHub, Postman, Figma

Experience

Backend Developer, SaasyWay – Remote Aug 2025 – Present

- Develop and maintain backend systems, APIs, and workflow automation for business applications using Python and Django.
- Build integrations with external platforms and CRM systems using REST APIs, webhooks, and backend orchestration workflows, including GoHighLevel.
- Contribute to AI-powered workflows using OpenAI integrations, OCR, and automated validation for processing and verifying business data and documents.
- Develop backend logic for client, booking, and service workflows while integrating external services and maintaining reliable data synchronization.
- Debug and optimize production systems, investigate application issues, and support deployments and ongoing improvements.
- Work with business requirements to translate operational workflows into backend features, integrations, and automation.

Full Stack Web Developer (Part-time), Amaanah Designs – Remote Aug 2024 – Mar 2026

- Developed and maintained production web applications using Python, Django, React, JavaScript, and PostgreSQL.
- Built REST APIs, database models, authentication systems, and application business logic using Django and Django REST Framework.
- Developed responsive React interfaces and integrated frontend applications with backend APIs and third-party services.
- Designed and worked with relational data models using PostgreSQL and Django ORM, including application queries and database-driven features.
- Integrated external APIs and services and handled data exchange between application components and

third-party systems.

- Investigated production issues, implemented fixes, and supported application deployment and ongoing maintenance.

Projects

ElevateHub - Collaborative E-learning Platform

[GitHub](#)

- Built a full-stack collaborative learning platform using Django, React, PostgreSQL, and Django REST Framework.
- Implemented real-time communication features including chat systems with WebSockets and video calling with WebRTC.
- Developed discussion systems, resource sharing workflows, JWT authentication, and mentor-student interaction features.
- Designed scalable backend architecture using Django Channels, Redis, and cloud deployment workflows.
- **Technologies Used:** Django, Django REST Framework, React, Redux, PostgreSQL, Redis, Django Channels, JWT Auth, WebSockets, WebRTC, AWS EC2, AWS RDS, Vercel

SkillSage - AI-Powered Skill Verification Platform

[GitHub](#) | [Demo](#)

- Built an AI-powered platform that evaluates candidate skills through adaptive technical interviews and personalized learning roadmaps.
- Developed backend services using Django and Django REST Framework for resume parsing, skill extraction, scoring, and interview workflows.
- Integrated Gemini AI for dynamic question generation, semantic answer evaluation, and roadmap generation.
- Implemented features including role-readiness scoring, recruiter reports, and voice-based interview support.
- **Technologies Used:** Django, Django REST Framework, React, PostgreSQL, Gemini AI, REST APIs, Railway

ShopHive - E-Commerce Platform

[GitHub](#)

- Developed a full-stack e-commerce platform with product management, authentication, order workflows, and responsive UI design.
- Integrated secure authentication, Google OAuth, and PostgreSQL-based product and order management systems.
- Focused on scalable backend workflows and seamless user experience across devices.
- **Technologies Used:** Django, PostgreSQL, Bootstrap, jQuery, OAuth, AWS EC2, AWS RDS

Education

Web Development using Python Django and React

2024 - 2025

Brototype, Remote

[Certificate](#)

Bachelor of Multimedia

2021 - 2024

JDT Islam College, University of Calicut

7.8 CGPA, Ranked 2nd in University

Online Certifications

Meta Front End Developer, Meta

[Certificate](#)

CS50 Introduction to Computer Science, Harvard

[Certificate](#)

CS50 Web Programming, Harvard

[Certificate](#)
